

Elegant Oak Première Oak

ENGINEERED FRENCH OAK FLOORS

“A hardwood floor can be our most intimate contact with nature.”

Capturing all the characteristics of France, this luxurious and contemporary French Oak engineered collection by Allied Flooring, has been carefully chosen to complement any space, be it your home, commercial or retail.

Elegant and Première Oak collection by Allied Flooring is inspired by the beautiful, old-world features of French décor.

The durability, strength and high quality engineered timber floor replicates all the same elements of solid timber flooring. The distinctive knots, grains and texture under foot provides a look and feel that showcases a true appearance.

Allied Flooring uses a resilient 7 coat Treffert UV lacquer system that ensures it is stain, scuff, scratch and slip resistant.

Elegant Oak is backed by a 25 Year Construction Warranty.

Allied Flooring also offers Elegant Oak RAW, a pre-sanded, square edge and unfinished product, designed to be stained and finished on site. An ideal substitute if the stains in our pre-finished range aren't quite what you're looking for.

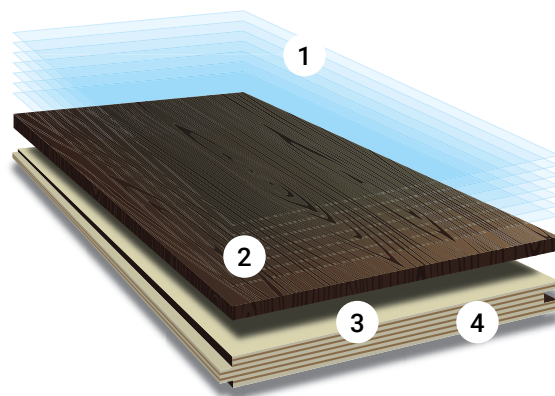

Elegant Oak is a traditional tongue and groove engineered Oak floor. The flooring is manufactured using a genuine French Oak lamella sourced from forests in France.

Elegant Oak combines a brush textured finish with a chic stain to add a touch of flair to any room without over powering it. The 189mm wide boards have a slight bevel on each edge designed to create depth, adding to the wooden floor charm.

PremièreOak

In keeping with the same seven stylish colours, Allied Flooring has produced a more economical product. Première Oak has a thinner 2mm lamella wear layer and 10mm plantation eucalyptus plywood base.

The Première Oak surface is finished with a subtle wire brush texture; this combined with the ultra matt coating, creates a defined appearance.

1. 7 stage, water-based, UV-cured acrylic urethane. Manufactured in Germany by Treffert incorporating Anti-Scratch technology, ensuring a strong and enduring protective layer for everyday wear and tear.
2. Genuine French Oak hardwood lamella wear layer – Elegant 4mm and Première 2mm.
3. Plantation Eucalyptus core is a high quality ply.
4. Veneer backing balance layer secures all the layers together.
